## EDUCATION

### Bachelor of Science in Computer Technology

Murang'a University of Technology, Kenya

08/2024 - Present

Courses

- Currently pursuing a Bachelor of Science in Computer Technology, focusing on software development, networking, and system design.

### Kenya Certificate of Secondary Education (KCSE)

Mutitu High School

01/2020 - 11/2023

Courses

- Successfully completed secondary education with strong performance in technical and science-related subjects.

## WORK EXPERIENCE

### Freelance Web Developer

Client: Private Employer | 2025

08/2025 - 10/2025

Achievements/Tasks

- Designed and developed a fully functional job-searching website for a client using PHP, HTML, CSS, and MySQL.
- Implemented job posting, user authentication, and application submission features.
- Delivered a clean, responsive, and modern interface based on the client's requirements.
- Improved performance and security by applying best practices in PHP and database design.

Contact: Brian Mathenge - 0700 903 771

## SKILLS

- HTML5/CSS    TypeScript    JavaScript  
React.js    Vue.js    Laravel/php  
Node.js/Express.js    TailwindCSS

## PERSONAL PROJECTS

Vue.js Portfolio Website (08/2025 - 08/2025)

- I developed a fully responsive personal portfolio website using Vue.js and TailwindCSS. The site includes smooth routing, well-structured components, and sections for my skills, projects, and contact information.

Laravel E-Commerce Platform (07/2025 - 08/2025)

- I developed a functional e-commerce web application using Laravel, featuring product management and shopping cart functionality.
- The system allows users to browse products, add items to cart, and place orders securely.

House Searching Platform (React & Express) – Ongoing (11/2025 - Present)

- I am currently building a modern house-searching platform using React for the frontend and Express.js for the backend.
- The system features property listings, advanced search filters, user authentication, and real-time data fetching through REST APIs.
- The goal of the project is to create a smooth and intuitive experience for users to explore, compare, and save available rental or sale properties.

## LANGUAGES

- English    Full Professional Proficiency    Swahili    Full Professional Proficiency

## HOBBIES

Building personal software projects

Tech blogging and learning new frameworks

UI/UX exploration
